

Greetings from the new Myers family! After having a wonderful time at our wedding on June 24 we started our honeymoon with two romantic days and nights in the honeymoon capital of the world, Niagara Falls! On Friday June 30 Mary left for Mexico to begin 5 weeks of eating, sleeping and most of all studying Spanish. We resumed our honeymoon on August 4 in Mexico City and began our archaeological journey. First there was Teotihuacan with the pyramids of the Sun and Moon. Then on to the Xochimilco, the floating gardens, a visit to the Cathedral of Our Lady of Guadeloupe, (Mexico's Madonna) and a little exploring the largest city in the world, Mexico City (20 million people). Oaxaca was next on our list, investigating the intricate mosaics in the ruins at Mitla and climbing to the top of a mountain to the ruins of Monte Alban and the gorgeous view. From there we were off to Merida in the Yucatan where the weather was 100° in the shade and the temples at Chichen Itza were amazing. To finish our honeymoon it was 4 days basking in the sun in Cancun. So we are sorry it has taken more than Emily Post's two months to get our thank you's out, but life has been good to us.
